INTRODUCTION

ABM Fintech is a specialized IT solutions and services company focused on delivering end-to-end banking technology solutions with a strong expertise in Finacle Core Banking System (CBS).

With a team of highly skilled professionals, we partner with public sector, private sector, co-operative, and international banks to provide implementation, customization, support, integration, and resourcing services. Our goal is to help financial institutions achieve seamless digital transformation, operational efficiency, and regulatory compliance.

Over the years, ABM Fintech has successfully executed multiple Finacle projects ranging from system upgrades and custom development to L1, L2, and L3 support. We have also built a strong reputation in resourcing services, deploying 100+ trained Finacle professionals across various clients.

OUR PHILOSOPHY

At ABM Fintech, we believe that technology should empower finance — not complicate it. Our philosophy is rooted in three core principles:

1. Innovation with Purpose

We embrace cutting-edge technologies not for trend's sake, but to solve real problems. Every solution we build is designed to streamline financial operations, enhance transparency, and drive measurable outcomes.

2. Trust Through Transparency

In a digital world where trust is currency, we are committed to openness, data integrity, and ethical practices. We ensure that every interaction — with clients, partners, or data — is secure, reliable, and fully accountable.

3. Customer-Centric by Design

We don't build systems in isolation. Every product, every service, every improvement is guided by the needs and feedback of our clients. Because when our clients thrive, we succeed together.

OUR MISSION

- Deliver end-to-end Finacle Core Banking, Digital, and Automation services.
- Enable seamless migration, integration, and compliance solutions for banks.
- Ensure continuous client support and knowledge transfer.
- Drive innovation and process excellence in banking operations.

OUR VISION

“To be a leading banking technology partner, empowering financial institutions with innovative, secure, and efficient solutions.”

WHAT WE OFFER

At ABM Fintech, we provide end-to-end Finacle Core Banking and IT services tailored for banks and financial institutions. Our offerings combine deep domain expertise with proven delivery models, helping clients achieve efficiency, compliance, and digital transformation.

1. Implementation & Customization

We provide end-to-end implementation of Finacle with seamless setup, module configuration, and report customization. Tailored solutions ensure your banking system matches business needs.

2. Upgrades & Migrations

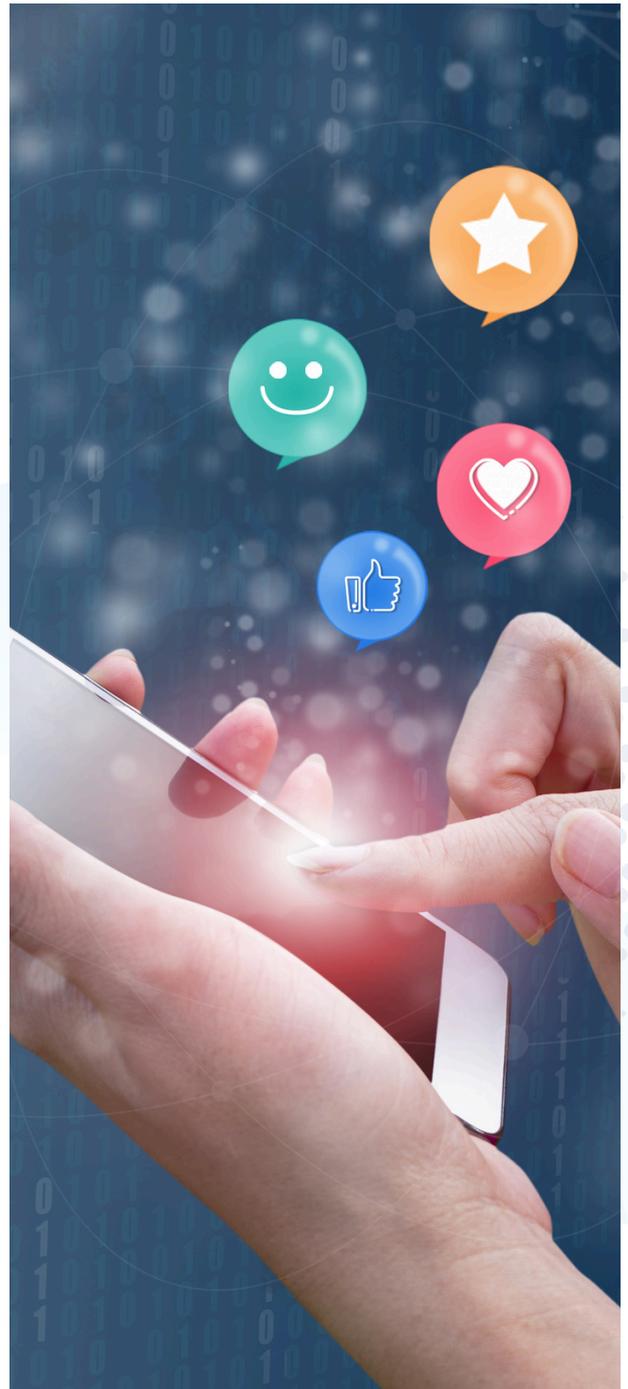

Seamlessly upgrade to the latest Finacle versions with minimal downtime. Our experts handle smooth data migration, ensuring security, consistency, and business continuity.

3. Support (L1/L2/L3)

Get 24x7 functional and technical support across L1, L2, and L3 levels. Our dedicated support team ensures quick issue resolution and uninterrupted banking operations.

4. Integration

We enable Finacle integration with APIs, digital banking channels, and payment systems. Enhance customer experience with secure, scalable, and seamless digital connectivity.

WHAT WE OFFER

5. Testing & QA

Our Testing & QA services cover UAT, regression, and automation testing. We ensure system reliability, compliance, and performance before every release.

6. Regulatory Solutions

Stay compliant with RBI and IBA guidelines through our regulatory solutions. We offer KYC, AML, and risk management support to meet industry standards.

7. Training

ABM Fintech delivers hands-on training programs for client teams. We equip users with practical knowledge to maximize efficiency and adoption of Finacle.

8. Resourcing

With a pool of 100+ Finacle-trained professionals, we provide skilled resources for on-site and remote deployments. Flexible resourcing ensures faster project delivery.

9. Consulting

Our consulting services help banks with core banking advisory and digital transformation strategies. We guide you in adopting new technologies for long-term growth.

CASE STUDIES / SUCCESS STORIES

- Successfully completed NACH module development and migration for a reputed co-operative bank.
- Deployed 50+ resources at a large public sector bank for L2/L3 support and Customization
- Integrated Finacle with digital channels for a co-operative bank.

CLIENTELE

Our clientele primarily includes leading banks, financial institutions, and fintech companies seeking skilled professionals in core banking and digital solutions. ABM Fintech also collaborates with IT service providers and consulting firms, ensuring trained candidates seamlessly fit industry needs. Our clients value expertise, practical training, and the industry-ready talent we deliver.
